

MIRIS – COOKIE POLICY

About this Cookie Policy

This Cookie Policy apply to the use of cookies on miris.no and other websites or platforms operated by MIRIS. MIRIS uses cookies as described below.

This Cookie policy explains what cookies are, how we use them and which information we collect by using cookies.). Please read our [Privacy Policy](#) for further information on how we use, store and keep your personal data secure.

What are cookies?

A cookie is a small text file that is stored on your computer or mobile device when you visit a website and makes it possible for the website to retrieve information from your device later. Cookies are partly used in to improve the user experience on the website, for example by remembering your choices and settings, and partly to develop the site and analyze your user pattern. Some features do not work without cookies.

How do we use cookies?

On our website, we use cookies to improve the user experience, to collect information for marketing and to develop the sites.

User Experience

We use cookies when you are logged in to our site, so you don't have to enter username and password for each new page you visit, for example during the investment process. We use cookies to remember what you have written in for example search fields and order forms so that you can navigate the site without having to re-enter this information each time you open a new page. We also use cookies to optimize the speed of the site.

Marketing

We also use cookies to customize offers and advertisements based on your activity on the websites, regardless of whether you are logged in or not. Such cookies can be used for example to customize the pages you see in terms of advertising and custom content.

Web Development

We use cookies to compile anonymous aggregated statistics that enable us to understand how visitors use the site and to improve the site's structure and form.

What type of cookies do we use?

Session cookies

For certain functions to work on miris.no or our other websites, so called session cookies are used. When you visit any some of our websites, our webserver assign a unique ID number to your computer for that specific visit. These cookies have no expiration date and are stored temporarily in the user's computer memory until the browser closes.

Persistent cookies

A persistent cookie has a set duration or lifetime that determines how long it is stored on your computer or mobile device. Such cookies are stored until the lifetime expires or you manually delete them.

Third party cookies

A third party cookie is a cookie stored on your device by someone else on our behalf. This happens when we use vendors that provide services for us, such as analytics services or services that let you share our pages on social media.

Consent

We only use cookies based on your specific consent collected on our website. We collect your consent by using a pop-up window when you log on our web side. You can at any time redraw your consent. Please be aware that we store cookies to improve your user experience and customize the content based on your needs and user pattern.
